CAREER OBJECTIVE

Front-End Developer with proven experience in helping companies create and maintain a better code base for reusability, scalability, and maintainability. Passionate about learning and development with a desire to apply skills on a larger development team. Eager to tackle more complex problems and continue to find ways to maximise user efficiency and building blazing fast user interfaces.

WORK EXPERIENCE

Software Engineer

Prunedge Technologies

January 2022 - current / Ogudu GRA, Lagos, Nigeria

- Lead the front end team that developed Business Automated System used by Oyo and Ekiti state for the workflow process automation.
- Developed the organisation's HR management solution for managing employee onboarding, performance and HR related events.
- Collaborate with design team to create attractive and user-friendly websites.
- Review proposed UI and UX designs for technical feasibility by standing as a middle-man while collaborating with back-end and product design teams.
- Implement project initiation to ensure clean architecture for scalability and maintainability.
- Lead the frontend team through out the life span of each application development while handling feedback and assigning tasks to team members for bug fixes during maintenance phase.
- Mentor a minimum of 3 junior engineers every quarter to ensure proper growth and development of their skills and career.

Front end Engineer

Venture Garden Group

October 2020 - November 2021 / Ikeja Lagos, Nigeria

- Collaborated with design team to create attractive and user-friendly web applications.
- Worked with the frontend team to create several Micro Frontend applications with React and React App Rewired for managing various services officered by the Payment Gateway application.
- Contributed as a team member to the development of the OKR management solution with React and Redux for state management.

- Collaborated with the Organisation's entire frontend team to build the its open source design system reusable components with React to achieve organisation-wide consistent user interface.

Front End Developer (Angular)

Xceed365 Limited

July 2019 - September 2021 / Remote

- Participated in design sessions to get specifications for features to be added to the organisation's SaaS product. Worked with technologies like Angular 6, Angular Material, Dev Express, Nx Workspace to achieve desired results.
- Collaborated with the API and Database teams to ensure release of the HCM solution features through proper implementation of 3rd-party libraries.
- Lead a 3 man team consisting of one API and one Database to work on each feature assigned to us.
- Tested, debugged, and shipped 10s of 1000s of lines of code on features reported by the implementation team. This lead to 100% bug-free deployment.
- Enhanced existing features to meet the demands and feedback of clients through the customer success team. This increase the retention of existing clients and increased interest of prospective clients.

Front-End Developer Intern

Xceed365 Limited

October 2018 - July 2019 / Marina Lagos, Nigeria

- Mastered Javascript and learnt Angular to be properly equipped to actively participate in project contribution.
- Made minimal contribution to the organisation's SaaS product, an HR solutions, and automating employee management and HR processes.
- Documented code changes in manuals to orient developers and the implementation team of the organisation.
- Conducted automated user and integration tests to verify functionality.
